We stand ready to assist you following your purchase. Whether you need warranty support or replacement parts, we understand the significance of providing our customers with access to the components necessary for the bikes we sell. Unlike other shops that solely sell bikes, we ensure that you have the means to address any repairs or maintenance needs for your purchase. Click here for [Parts](#)

The Tornado Kids ATV, boasting 1000W of power, is the ultimate electric quad tailored for children aged 4 to 8. Equipped with a 36V battery and a robust 1000W motor, it leads the electric ATV category in both power and range. Crafted to emulate "grown-up" ATVs, this sleekly designed 1000W Kids ATV allows your children to experience the thrill of authentic ATV riding right in their own backyard, mirroring the look and feel of mom and dad's adventures. Built with durability in mind, the 1000W Kids ATV incorporates advanced features, including oversized all-terrain rubber tires, assertive front and rear utility racks, dual LED headlights, and a shock-absorbent suspension package. Safety is a top priority, and this unit includes enhanced features such as a disc brake system and a 3-speed governor with reverse, ensuring maximum stability and control for your child's riding experience.
