Description

The improved structure, along with other feature updates, such as a resistance rating of IPX5 for the whole body (IPX7 water resistance for core components), and various durability upgrades ensure that the MAX will be your dependable, long-serving ride. Rear Wheel Power System The Ninebot KickScooter MAX can climb slopes around 15%, allowing it to go uphill easily. The rear wheel power also offers you better acceleration, stability, and braking power. Spacious Footrest/Deck Designed to accommodate two adult feet (6.7in x 25.6in) with a slip-resistant surface for added safety. Wide Vacuum Inflatable Tires The 10-inch front and rear tubeless tires offer added shock absorption for comfortable riding. Get through bumpy terrain easier. LED Dashboard Select from four different riding modes, including power assist for pushing the scooter. Check your maintenance signals, power levels, and Bluetooth connectivity. Dual Braking System Front wheel mechanical drum brake. Back wheel regenerative electric brake. Simultaneous dual brake provides the greatest stability and steer-ability. IPX5 water resistance. Reflective Sticker High quality reflective warning sticker on both sides of the front and rear fork provides increased safety in low light conditions. Lights 2.5W LED front headlight controlled with on/off switch. Automatic rear/brake light.

Specifications

Net Weight: Approx. 41.2 lbs (18.7 kg)

Rider Payload: 66.1-220.5 lbs (30.0-100.0 kg)

Recommended Age: 14+ years

Required Height: 3'11"-6'6" (120-200 cm)

Max. Speed: ~18.6mph (30Km/h)* in Americas Region

Typical Range: Approx. 40.4 miles (65 km)

Max. Slope: Approx. 20%

Traversable Terrain: Asphalt/flat pavement: obstacles
Operating Temperature: 14-104°F (-10-40°C)

Storage Temperature: -4-122°F (-20-50°C)

IP Rating: IPX5

Duration of Charging: ~ 6 h

Battery Nominal Voltage: 36 VDC

Max. Charging Voltage: 42 VDC

Charging Temperature: 32-104°F (0-40°C)

Battery Capacity: 551 Wh

Battery Management System: Over-heating, short circuit, over-current and over-charge protection

Number of Batteries: 1

Motor Nominal Power: 350 W

Charger Output Power: 121 W

Input Voltage: 100-240V ~ 50/60Hz

Output Voltage: 42 VDC

Output Current: 2.9 A

Brake Light: LED rear light

Riding Modes: Energy Saving mode, Standard mode and Sport mode

Dimensions:

Unfold : Length x width x height 45.9 x 18.6 x 47.4 in (1167 x 423 x 1203 mm)

Fold: Length x width x height 45.9 x 18.6 x 21.0 in (1167 x 423 x 534 mm)
